

Gravermeister

UPGRADE

Get the most out of your 915 Handpiece

The new GRS 915 Handpiece has a very wide power range. If your Gravermeister is an 800-1200 stroke version, you will not be able to use the FULL capability of the new 915 handpiece. To get the most out of your new 915 handpiece, you may want to upgrade your 800-1200 stroke version Gravermeister with the High Speed Valve Kit #001-893. With the faster 1600-2400 impacts per minute, you will get the full use of the 915 and have smoother cuts, longer tool life and reduced work time.

QTY.	PART NO.	DESCRIPTION	COST EACH
